INFRARED EXTINCTION AND STANDARDIZATION PROCEEDINGS OF TWO SESSIONS OF IAU COMMISSIONS 25 AND 9 HELD AT BALTIMORE, MARYLAND, USA, AUGUST 4, 1988 LECTURE NOTES IN PHYSICS

Springer. Paperback. Condition: New. 79 pages. Extinction and standardization corrections to infrared measurements are of the utmost importance in astronomy. Various views on these concepts and problems of implementation in infrared photometry are discussed thoroughly and recommendations are presented. Among these are: the adoption of narrower broad-band Johnson filters that are better centered in the atmospheric water windows than is currently the case; the measurements of atmospheric water vapor content concurrent with the astronomical measurements; the use of appropriate atmospheric...
