This book is about a new big tech platform I feel needs to exist in America. Back in 2008, while brainstorming ways to market my small business, I came up with a simple idea. The idea was technical but it was just for my community and area. I never could find a way to create this tech idea. Over time this idea evolved and morphed into something much bigger than I can ever bring to fruition on my own. The idea is still simple, but on a massive scale, I believe this one idea could change the way we do marketing and offer every size business in America a faster and better way to connect with every class of consumer, in every community and beyond. As well as help millions of struggling Americans. Two seemingly different topics but with this one idea I see a vast potential and value for millions of people in this country. I refer to this idea as my Facebook for Businesses idea. Only its not structured like Facebook or any of the current business search directories, websites or tech platforms, and it doesnt work like anything else currently out there. Nothing like this idea currently exists. With the cloud and the future of voice, phones and pay per transactions, as well as the ever changing landscape of search and for ads, the sky really is the limit with this idea. The implications for what this kind of platform could offer and provide are enormous and profound, both for the users and the platform. (The numbers are stellar with many possibilities over and above what is in this book. ) With all the various tech platforms,...
